**-1/2 cubic yard minimum for loading**

**-1 CY of rock is approximately 1.30 tons,**

**-1 CY of road base/Breeze/Sand ~ 1.5 tons**

**1 Cubic Yard covers 100sf @ 3" deep for mulch, soils, compost, and rock less than 2" in size.**

## ROCK INFO, SIZES & DIRT/FINES

Please be advised that while rock is screened at the quarry, rock is not washed, and therefore at times rock may contain 25% or more of dirt/fines from the quarry during the mining process. **Rocky Top Resources will do our best to mitigate this, but Rocky Top is not responsible for any dirt/fines in loads.**

Rock sizes are approximate and based on each quarry's description and approximate length or width of most of the rock material. There will be rocks that are smaller or larger than the stated size, particularly with river rock, due to the screening process at each vendor's quarry.

Rock is a natural resource, and as such, rock is not guaranteed for uniformity in size, color, or texture. When picking up loads at the quarry, variations in size, color, or texture can happen from one load to the next, sometimes on the same day, based on where the quarry is mining.

River Rock can have the largest size variation, as well as the most dirt/fines from each quarry, especially after a rain or snow storm.

Rocky Top Resources is not responsible for damage to customer's vehicle when loading. It is also the customer's responsibility to know how much weight their vehicle can safely hold and transport.

**RETURN POLICY:** Some items purchased at Rocky Top Resources, Inc. may be returned within 14 days of the original date of purchase, or delivery date, whichever is latest. If the item is a returnable item, it must be in sellable condition, as determined by an authorized Rocky Top Resources' employee, and will be subject to a 20% restocking fee. The return tender will be the same as the original tender used for payment. Please note, checks may take up to 14 business days to process for a refund. The following are non-returnable items: Sale or Discount Items, Fabric (if opened), Boulders, Flagstone, Delivery & Hauling charges, Dumping charges, and Services. Rocky Top Resources, Inc. is not responsible for any purchased or charged product left at Rocky Top Resources' Facility

Logs, under 7' combined rule*	\$7 per cubic yard, \$25 minimum
Logs, over 7' combined rule*	\$10 per cubic yard, \$25 minimum

\*combined rule: length plus width is 7' or less

\*if load is mix of logs under and over 7' combined rule, then full load will be charged at oversized price of \$10 per cubic yard

**Pull Offs: \$10 each**  
**Stump Assist: \$25 each**

***\*\*Please keep items separate from each other, as some items cannot be combined based on how they are recycled. If items are mixed and cannot go on the same dumping pile, the load will be charged at the Mixed Load rate. Please call with any questions\*\****

***\*\*To determine cubic yardage, multiply the length x width x height of the load and divide by 27\*\****

***SATURDAYS FOR RESIDENTS ONLY (EXCLUDES COMMERCIAL)***  
***\$10 per load except Pine Needles/Juniper/Pfizers/Cedar/Stump/Dirt/Rock/Old Mulch***

***\*\*Pricing subject to change without notice\*\****

Customers dumping materials other than yard waste will be fined.  
 We do not accept any material that has been painted, stained, or treated.  
We do not accept metal, asphalt, concrete, any trash, paint, etc.

***We reserve the right to refuse a load if it has any amount of the above materials that we do not take included. If you are caught dumping any of the above materials that we do not take, you will be asked to leave with no refund given.***

Each load is visually estimated. We are happy to measure any load questioned; the load will be charged at the measured quantity.

Please contact El Paso County @ (719) 520-7878 for the recycling of chemical, appliance, electronic, and other items we do not accept.

**Hours of Operation: M-F 7:30am-5:00pm SAT 8am-4pm  
 SUN-CLOSED**
